Deer antlers fall in winter.  
In spring the antlers grow.  
Antlers show their power.  
Their tails are cures, well-known.  
The Sambar's eye-glands well up in anger.  
And their tendons rare to fetch.  
Great medicine is within you and me,  
If we live the life harmony.  
Why harm another being  
to save a human then?
